RECEIVED BY BPA FOIA OFFICE THIS DATE: <u>6/23/03</u>
DUE DATE: <u>7/21/03</u>
LOG # <u>03-029</u>

This is a request under the Freedom of Information Act.

I am requesting BPA transmission network model data for Powerflow (Loadflow) analysis. The data will be used with the IPF program that was developed by BPA but is no longer support by BPA. I understand that BPA now uses network data in a GE format. I need realistic base case data in ASCII/GE or ACSII/IPF format to demonstrate the robust solution capabilities of the IPF. I understand that this data was recently removed from the BPA web site over concern that the data could be misused.

I am small (one person) business and former BPA employee. I was contacted by Sandia Labs to help them get the IPF running on their Linux and Unix computer systems.

This data is for the benefit of another federal government agency and it seems appropriate that the fee for the request be waived. However, I am willing to pay up to \$50.00 to expedite the release of the data. If you estimate the fees will exceed this number, please inform me first.

Please contact me by:
(1) e-mail Stefonek@saw.net
(2) Phone 503-695-5565
